Features:

- 1,500 Watt Power Inverter
- 1000 Watts Single Inverter Hookup
- Monster Powerflex® two-gauge power cable with patented Magnetic Flux Tube® for instantaneous power transfer
- In-line weather-resistant ANL fuse holder for up to 200 amp current handling
- 24k gold contact ring terminals for maximum current transfer and corrosion

Part#

59/PP602187 Cobia Power Inverter and installation kit

Description

Quick Care Fluid Analysis

Quick Care Fluid Analysis is a snapshot of what is happening inside an engine, transmission, hydraulic or drive axle. It tells you the condition of the lubricant and identifies component wear and contamination, so you are able to extend oil drain intervals, extend equipment life, maximize asset reliability.

The Quick Care Fluid Analysis program is designed to save time, money and down time. Using the program, you will have access to all analysis data online.
