SKIDDD WHEEL ROTATION INDICATOR

When driving a large truck and trailer, the driver is unable to see the rear tires rotate. Tires occasionally lock due to freezing or other mechanical failures. By simply checking the rear view mirrors, the **SKIDDD Indicator** allows the driver to see if the tires are rotating or not. This simple safety feature will allow the driver to spot a locked wheel before any permanent damage or accidents can occur.

The **SKIDDD Indicator** rest on the outer portion of the rim, and is jamnuted onto the wheelstud. The **SKIDDD Indicator** sticks out 2" from the wheel and does not encroach the legal maximum width of the vehicle. The driver can check the indicators from the rear-view mirrors of the cab. By moving the trailer 2 ft forward or back, the driver is able to view the rotating tires. This is a fast, easy, and safe check of your trailer wheels.

SKIDDD is made of a special nylon plastic. At -55° C this material holds its flexibility and will not crack or tear off.

A SAFETY FEATURE THAT "SAVES YOU MONEY"

Every year there are numerous accidents on our highways involving semi-trailers. The only way to prevent accidents is to promote safety. **SKIDDD Indicator** is a reliable safety feature for all trailers and rigs.

A flat spot on the tire will occur within 200 ft. of drag. Because a skidded tire has lost its circumference, and a tire rotates at 489 revolutions per mile, the torque specifications of the wheel would be unsafe due to heat generated, and the stress on the hub, studs, and rim. Wheel safety is clearly compromised.

A Government test of **SKIDDD Indicator** was performed in our area for 18 months. The drivers reported that the indicators were clearly visible from the rear-view mirrors. This allowed for a safe check of the wheels without having to make unsafe 180° swings to left and right. And painted tires or the "Zebra Look" hurts the look of the fleet, and does not solve the problem of unsafe wheel checks.

SKIDDD Indicator is a safety feature that saves you money!

3 Types of SKIDDDS available:

UNIMOUNTS	SKIDDD-U	\$16.50 /set of 4
DAYTONS	SKIDDD-D	\$16.50 /set of 4
BUDS	SKIDDD-B	\$16.50 /set of 4
